Bridge of Hope (BOH) is ending homelessness for single mothers and their children in the Greater Denver Area by:

- Helping families obtain safe and long-term housing.
- Providing professional case management focused on building life skills, career development, and budgeting.
- Partnering each family with a team of volunteers from a Christian faith community who provide support, encouragement and friendship.

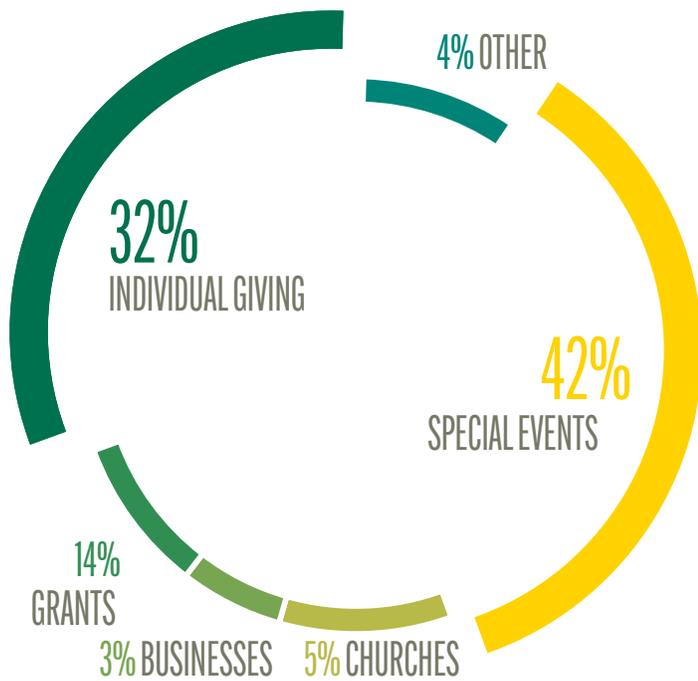

Over a one-to two year period, this combination of resources empowers families to become self-sufficient so that they never face homelessness again.

*"Bridge of Hope gave me confidence in myself. It gave me a financial break to get me on track. It helped to avoid being homeless with two babies."*
